

Improving lives THROUGH
supports and services
THAT FOSTER self-determination.

Mental Health Commission

5/10/2018

Develops and provides resources to sustain disability organizations.

Partnership between:

- Administration on Community Living – ACL CMS
- American Association on Health and Disabilities
- American Network of Community Options and Resources (ANCOR)
- NASDDDS
- National Council on Independent Living
- National Council on Aging
- National Disability Rights Network
- University of Minnesota’s Institute on Community Inclusion

Missouri was one of 5 states chosen and our team includes:

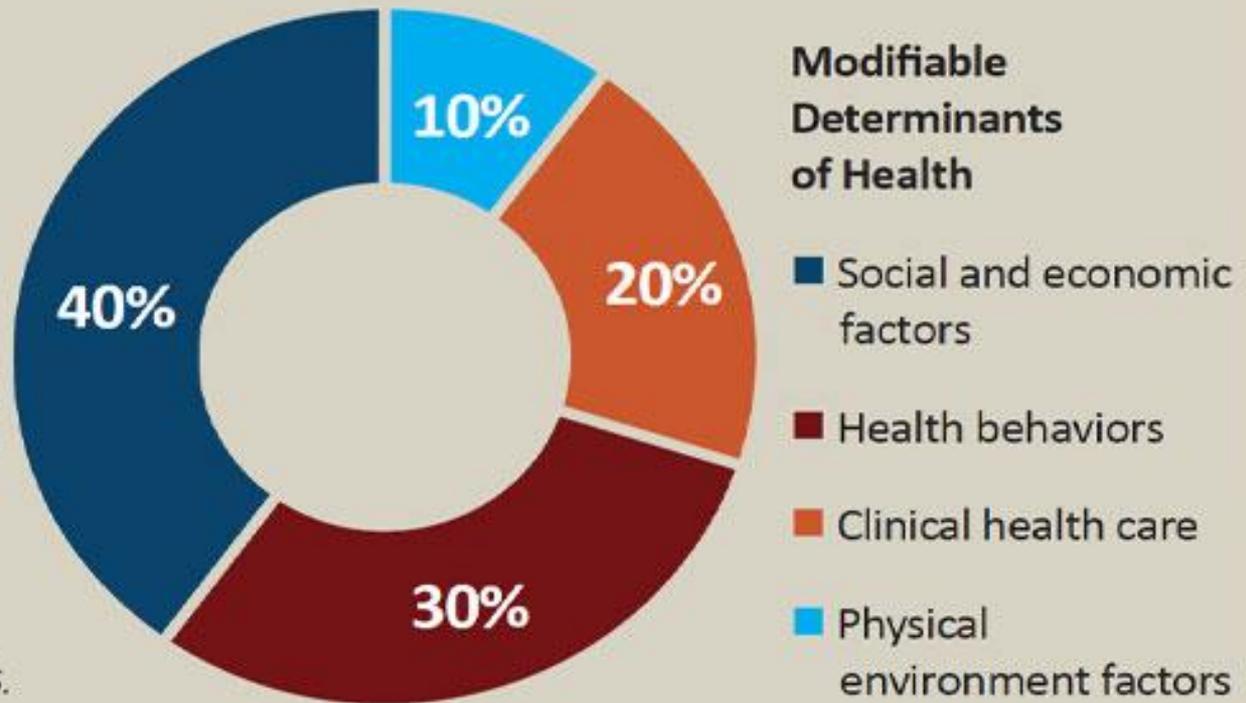

DSS - MHD
DHSS - DSIDS
AAAs
DD Council
IHD – UMKC

Missouri Alliance for Home Care
Missouri Council for In-Home
Services
Community Service Providers
TCM agencies

What Affects Health?

Researchers at the University of Wisconsin Population Health Institute estimated the percentage of people's health—including length and quality of life—that is affected by factors that can be changed or modified (i.e., excluding genetics).

Breaking Down Silos

-  Continue to engage with learning partners, including the Area Agencies on Aging.
-  Health Homes

Buy not Build – Sell, Sell, Sell

-  Meeting with CEO's of two plans in Missouri in June.

Defining “managed care”

-  Not a company...how a state pays for benefits – comprehensive benefit package through a risk-based contract resulting in better health

Champion or Challenge

Business Acumen Action Plan

Overall Aim:	Create an integrated system that demonstrates improved health outcomes, reduced costs, and increased stakeholder satisfaction through building collaboration and CBO capacity for people with IDD who are aging and/or living with co-occurring conditions.
Priority Area #1:	Strengthen CBO capacity.

Strategies		A: Develop system-wide value-based health outcomes and demonstrate ROI.	B: Build stakeholder engagement.	C: Develop opportunity for innovation projects.
Levels of Success	Exceeds	Develop comprehensive outcome report of LC CBOs that demonstrates improved health outcomes and reduced healthcare costs in target populations.	Host a learning summit to promote learning state-wide.	Implement alternative federal funding mechanisms.
	Expected	Develop tracking mechanism and process within LC CBOs to collect data related to physical and mental health outcomes and associated costs.	Expand knowledge of CBOs through presentations at learning collaborative meetings.	At least one CBO will develop a contract with a new funding partner.
	Minimum	Identify and agree upon outcome sets for physical and mental health.	Develop information and resources to build collaboration and mitigate risk.	Identify and prioritize opportunities for partnership between CBOs at the local level.
