

Improving lives THROUGH
supports and services
THAT FOSTER self-determination.

2/26/18

Family Focus Groups

The Division of Developmental Disabilities (DD) is hosting [Family Focus Group](#) sessions across the state to collect information and feedback from individuals who have a developmental disability and family members regarding the supports and services they want, need and utilize. Family representatives should have lived experiences in supporting a family member with a developmental disability. The Division will use the information shared to help design the services delivery system to be more responsive to families and individuals. For more information about sessions near you and how to participate, you may visit the division website at: <https://dmh.mo.gov/dd/consfam/>.
