Recorded Webinar

Unemployment Insurance, Economic Impact Payments, SSI, Social Security Disability and the COVID-19 Emergency

April 23, 2020

The newly-passed Coronavirus Aid, Relief and Economic Security (CARES) Act made substantial changes to Unemployment Insurance, greatly expanding eligibility, payment amounts and duration. The Act also provides economic impact payments for most adult Americans. This webinar provided an overview of Unemployment Insurance, the changes made by the CARES Act, the basics of the economic impact payments, and how these benefits interact with Supplemental Security Income (SSI), Social Security Disability and other public benefits.

Presenter: Michael Dalto - VOICE National Subject Matter Expert. This webinar was designed for a general audience of disability professionals including employment service providers, VR counselors, benefit professionals and others.
