## StationMD

[StationMD telemedicine](#) is a service immediately available to all Medicaid Waiver recipients **free of charge**. The service is available 24-hours a day/7-days a week and gives you immediate access to a physician to address **any of your medical concerns**. This includes questions you may have about COVID-19 and the most up-to-date guidelines.

It is estimated that individuals with I/DD are up to 4 times more likely to contract COVID-19 and 2.5-4.5 times more likely to die from complications due to the virus. As the country moves towards re-opening, we understand that there is still a real need for social distancing and staying home whenever possible.

[Click for a pamphlet](#) about COVID-19 that touches upon the basics, but StationMD physicians can help you determine who needs testing, when you need hospital care, how to properly isolate and manage both symptomatic and asymptomatic exposed individuals.

You can find more information about StationMD services at [www.stationmd.com/modmh/](http://www.stationmd.com/modmh/). Contact [MO-DMH@StationMD.com](mailto:MO-DMH@StationMD.com) or call (908) 663-2929 ext. 830 if you have any questions.
