FSD Signatures for Medical Records

Effective immediately Family Support Division (FSD) has expanded the acceptable list of signatures on medical records to include signatures by an Advanced Practice Registered Nurse. Medical records signed by a Licensed Clinical Social Worker (LCSW) still require a counter signature from one of the list below.

The complete list of signatures which **do not** require a counter signature are:

1. Licensed physicians (medical or osteopathic doctors);
2. Licensed or certified psychologists, including school psychologists;
3. Licensed optometrists;
4. Licensed podiatrists;
5. Qualified speech-language pathologists;
6. Licensed audiologists;
7. Licensed Advanced Practice Registered Nurse, or other licensed advanced practice nurse with another title; and
8. Licensed Physician Assistants.

If you have any questions or concerns on MO HealthNet eligibility issues, you may send an e-mail to DMH.MedicaidEligibility@dmh.mo.gov.
