Emergency Room, then Admitted	141,143	127,998	123,191
Admitted without Emergency Room	116,583	107,187	99,293

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1. All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

2. Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

3. In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

4. DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1 All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

2 Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

3 In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

4 DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1	All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
2	Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
3	In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
4	DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1	All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
2	Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
3	In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
4	DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1. All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

2. Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

3. In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

4. DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1	All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
2	Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
3	In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
4	DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1 All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

2 Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

3 In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

4 DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1]	All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
[2]	Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
[3]	In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
[4]	DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

Emergency Room, then Admitted	1,856	1,453	1,261
Admitted without Emergency Room	3,179	3,078	2,960

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1]	All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
[2]	Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
[3]	In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
[4]	DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1. All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

2. Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

3. In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

4. DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

[1] All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

[2] Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

[3] In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

[4] DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1	All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
2	Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
3	In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
4	DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1. All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

2. Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

3. In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.

4. DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.
