- Budget Update** – (submitted by Vicki Schollmeyer) The House Budget Committee will have their markup hearing on all HBs on Monday, March 22 at noon.
- CIT Conference 2021** – DMH in partnership with the Coalition for Community Behavioral Healthcare and the Missouri Crisis Intervention Team (CIT) Council held the 7th Annual CIT Conference virtually on March 15-16. More than 450 law enforcement officers, first responders and behavioral health professionals were in attendance. The event recognized individuals across the state with various awards. Dr. Rick Gowdy, former Director of the Division of Behavioral Health, was recognized at the event for his support of CIT over the years.
- PPE Marketplace to be Unavailable after April 1, 2021** – The PPE Marketplace will no longer be available for use after April 1, 2021. Fortunately, supply chains for PPE have been corrected and the PPE Marketplace has successfully served its purpose as part of Missouri's COVID-19 response. Missouri DED apologizes for any inconvenience this may cause. Thank you for using the PPE Marketplace to assist our state's response to COVID-19. - Consumer Stimulus Checks** – A new round of stimulus checks being distributed may be sent to a number of DMH consumers. These funds do *not* prompt a new calculation of the SMT for DMH-funded services. The stimulus checks also are not intended to offset usual DMH or provider costs. Simply, the funds belong to the consumer and are intended to be spent by the consumer or representative payee in the interest of the recipient. Individuals living independently may need these funds to help with their housing expenses. DHSS updates for their licensed facilities may be posted on: <https://ltc.health.mo.gov/>.
- Important - Treatment Court CIMOR Instructions** – Instructional materials that provide CIMOR guidance to agencies who utilize CSTAR funding for treatment court participants have been added to the Justice Involved Treatment Initiatives DMH webpage. [Access Now](#)
- New Survey for Stimulant Use Disorders** – The Mid America Addiction Technology Transfer Center is partnering with the Missouri Institute of Mental Health, the Opioid Response Network, and Saint Louis University to produce new resources in response to the rising needs of serving clients with Stimulant Use Disorder (StimUD). This survey was created to gain a

COVID Vaccine: Get the Facts

Vaccine Question: Is a COVID-19 vaccination the safest way to help build protection?

Vaccine Truth/Fact: Yes. COVID-19 can have serious, life-threatening complications, and there is no way to know how COVID-19 will affect you. And if you get sick, you could spread the disease to friends, family, and others around you. Clinical trials of all COVID-19 vaccines must first show they are safe and effective before any vaccine can be authorized or approved for use. The known and potential benefits of a COVID-19 vaccine outweigh the known and potential risks.

4. **MO-HOPE Trainings** – MO-HOPE trainings are still available to community members and organizations. The goal of the [Missouri Opioid-Heroin Overdose Prevention and Education \(MO-HOPE\) Project](#) is to reduce opioid overdose deaths in Missouri through expanded access to overdose education and naloxone, public awareness, assessment, and referral to treatment. Within the state of Missouri, the MO-HOPE project offers trainings for **Overdose**

Education and Naloxone Distribution (OEND) at no-cost. Over the course of two hours, OEND trainings include a discussion of opioid use disorder (OUD) as a brain disease, the landscape of the epidemic, and how to have conversations about overdose prevention and naloxone distribution. Additionally, MO-HOPE offers a **Training-of-Trainers (TOT)** model, in which a participant is trained to actually deliver the OEND curriculum to others. In doing so, an organization can train one or several of its staff members to continue delivering the training to others as needed. Similar to the OEND trainings, TOT is offered virtually once a month, or can be offered upon request by an organization. For other options to participate in these trainings, click [here](#).

5. **MAT Waiver Training** – This 8-hour course is different from the traditional 8-hour live course, as the first 4-hours will be live through Zoom and then the last 4-hours will be individual online work. Once you complete the first 4-hour live training, you will receive an email from AAAP with a link for the other 4-hours of individual work. Once that work is completed, you will receive a certificate of completion. Upon completing the required courses (MD-8 hours, NP and PA-24 hours) participants will need to submit a Notice of Intent form (NOI) along with their certificate(s) of completion, provided after completing the training, which verifies that they have completed the required coursework. A link to the NOI form application will be given following the training. [Register](#)
