

Improving lives THROUGH
supports and services
THAT FOSTER self-determination.

5/19/21

FREE Missouri's No Wrong Door Workshop Series

May 26, 2021
12:30pm – 1:30pm (CST)

Strategies for Preventing Falls

Join this FREE on-line workshop and learn how to explore and plan for integrated services, supports, and technology for improving health outcomes for you and those you support. Through cost-effective assistive technology (AT) resources and every-day skill-building strategies, the goal of this session focuses on assistive technology and health, which will:

- Provide immediate-use ideas for problem-solving and planning for health outcomes
- Strengthen your everyday technology knowledge for enhancing health
- Incorporate / Understand local service and support strategies

Register for the May workshop [HERE](#).

Future workshops include:

June 23rd: "Supports for Viewing Print and Computers"
