

Improving lives **THROUGH**
supports and services
THAT FOSTER self-determination.

9/3/21

September is Suicide Prevention Month

During September, mental health advocates, prevention organizations, survivors, allies, and community members come together to promote suicide prevention awareness. Here are some quick tips and helpful resources about suicide and how to prevent it.

According to officials at the World Health Organization (WHO.int), more than 700,000 people die by suicide each year; many more make an attempt. Rates in Missouri exceed those of the nation and have been steadily rising (SPRC.org).
