

9/2/21

Targeted State of Emergency for Health Care System

The [Missouri State Public Health Emergency](#) ended on August 31, 2021. [Missouri Executive Order \(EO\) 21-09](#) was signed declaring a Targeted State of Emergency for Health Care System through December 31, 2021. All DMH Code of State Regulations waived under the previous state public health emergency will remain waived through under EO 21-09 through December 31, 2021.

Effective July 20, 2021, the U.S. Department of Health and Human Services issued a declaration that a federal public health emergency is still in existence related to COVID19. The declaration is set to expire Monday, October 18, 2021.

The [CMS Appendix K Addendum](#) will expire no later than six (6) months after the expirations of the federal public health emergency.

The [COVID-19 Flexibility Authority Chart](#) was updated with the new Targeted State of Emergency expiration date.
