

Improving lives THROUGH  
supports and services  
THAT FOSTER self-determination.

9/8/21

Missouri Chapter of American Association on Intellectual and  
Developmental Disabilities (MO AAIDD) Presents  
a Virtual Workshop Opportunity

**Community Asset Mapping**

**When: September 16, 2021**

**Time: 10:00 am - 12:00 pm**

**Cost: \$30**

Featuring Matthew Flannigan, George Washington University,  
and Dr. Jennifer Bumble, University of Kansas

Digital asset mapping is an innovative tool to identify and connect to services and supports in the community and facilitates community participation for individuals with disabilities and their families.

Using digital community resource maps allows for:

- Enhanced person-centered planning process
- Creating portfolios of individual strengths and experiences
- Building a library of resources to help families identify community services and support
- Developing virtual maps to help with community navigation

Workshop participants will receive tools and expertise needed to start mapping in their own communities.
