Upcoming Webinar

Missouri Adaptive Ability Scale (MAAS) Assessment Scheduling Using Calendly

Support Coordinators and Intake Specialists will learn how to schedule a Missouri Adaptive Ability Scale (MAAS) Assessment using Calendly scheduling software. The MAAS, which has an anticipated go-live date of 1/1/2023, will replace the MOCABI/Vineland/etc. It is imperative that all Support Coordinators and Intake Specialists understand how to request/schedule a MAAS assessment prior to the go-live date. Several dates are available to allow for scheduling flexibility to gain these required skills. All sessions are the same; attendance is only necessary at one session.

Presenters:

- Neil Harms/Director of Eligibility and Utilization Review
- Alisa Arthur/Statewide Assessment Trainer
- Paul Conover/Statewide Assessment Trainer

Target Audience:

- Support Coordinators--State and Private TCM
- Intake Specialists
- Other interested individuals
