The Division of Developmental Disabilities Health Home (DD Health Home) is being designed in collaboration with the Missouri Department of Social Services, MO HealthNet Division. The DD Health Home is for individuals served through the Division who have a qualifying chronic health condition and a healthcare level indicating increased health-related risks or destabilization. The DD Health Home is not a home. It is a program to provide care coordination for enrollees while integrating care management.

Several webinars are available to allow for scheduling flexibility, and all sessions will be the same. During the webinar, attendees will gain an understanding of the Division of DD Health Home initiative and will have the opportunity to ask questions and provide feedback.
