#### **Avoiding Preventable Death Using the HRST: A Review of the Latest Mortality Research**

**March 3, 2023  
12:00 PM**

For several years, Georgia's Department of Behavioral Health and Developmental Disabilities (DBHDD) has used the Health Risk Screening Tool (HRST) in its annual mortality report. In this 45 minute, free webinar, we'll briefly examine the latest report, its findings, and how you can use this data to avoid preventable, unnecessary deaths among those you support.

#### **Presenters:**

- Dr. Craig Escude, MD, FAAFP FAADM, President, IntellectAbility
- Johnathon Crumley, Chief Operations Officer, IntellectAbility

#### **Target Audience:**

- Individuals, families, and any other interested individuals
- TCM entities
- Service Providers
- Division Team Members
