MOADD ECHO

Missouri Alliance for Dual Diagnosis -- Extension for Community Healthcare Outcomes (MOADD ECHO) bridges the care gap between professional mental health providers, state agencies and service systems, and children with dual diagnoses. Collaboration sessions will be held the 1st and 3rd Wednesday of each month from 12:30-2:00 pm. The next session will be Wednesday, April 19. The topic for this session is Transitioning into Adulthood - Family Perspective, with Lisa Nothaus, Division of Developmental Disabilities Supporting Families State Lead as the guest speaker. To participate in the session, you need to [register](#) as a MOADD ECHO member and information will be sent to you..
