MOADD ECHO

Missouri Alliance for Dual Diagnosis -- Extension for Community Healthcare Outcomes (MOADD ECHO) bridges the care gap between professional mental health providers, state agencies and service systems, and children with dual diagnoses. Collaboration sessions will be held the 1st and 3rd Wednesday of each month from 12:30-2:00 pm. The next session will be Wednesday, May 17. The topic for this session is Planning Tools, with Lisa Nothaus, Division of Developmental Disabilities Supporting Family State Lead, as the guest speaker. To participate in the session, you need to [register](#) as a MOADD ECHO member and information will be sent to you..
