UPDATED Resources Available ConneXion Companion Guide and Claim Error Code List

Important information for anyone sending electronic claims to CIMOR for Developmental Disabilities Services

The Division of Developmental Disabilities (DD) Case Management System (ConneXion) is scheduled to Go-Live in October 2023. ConneXion will replace CIMOR for **ALL** DD Waiver and Purchase of Service (POS) Billing. ConneXion will support electronic submission of claims as well as online data entry. Providers who currently bill electronically to CIMOR will need to make adjustments to be able to submit claims to ConneXion. The [ConneXion Companion Guide](#) for submitting electronic claims to the ConneXion system and the [ConneXion Claim Error Codes List](#) provide additional information regarding these changes. Please review and share these documents with your billing system vendor and/or clearinghouse. Use the diagram below “ConneXion Flow of Delivered Services” for a better understanding of how Division services will run through ConneXion on go-live. If you are a TCM provider, billable case notes will be required to be documented in the ConneXion system and will drive billing out of the ConneXion system.
