### **DD Health Home Initial Provider Application**

The Division of Developmental Disabilities (DD) is developing, in collaboration with the Missouri Department of Social Services, MO HealthNet Division, a new DD Health Home program.

***DD Health Home is not a home; it is not a group home; and it is not in-home medical services.*** DD Health Home is an integrated model of care that provides comprehensive care coordination of medical, behavioral health, and other needed services for individuals with Intellectual and/or Developmental Disabilities (IDD) who have, or at risk of, chronic conditions.

This program will require a team of professionals to include a Health Home Director, Nurse Care Manager, Physician Consultant (Advanced Practice Registered Nurse (APRN) as a substitute), Specialized Healthcare Consultants and DD Health Home Facilitator. DD Health Home services are a state plan option, which is still pending approval by Centers for Medicare & Medicaid Services (CMS); these services are provided statewide. A DD Health Home Provider will receive a Per Member Per Month (PMPM) for each individual enrolled in the DD Health Home. DD Health Home is not a direct fee-for-service or state plan service billing.

The Division will designate Targeted Case Management and accredited and/or certified Home and Community Based (HCBS) Waiver Providers as DD Health Home providers. Additional program requirements, including the [DD Health Home Initial Provider Application](#), are available on the [DD Health Home Webpage](#).

**Completed** applications will be accepted until close of business **12/15/23**. Please email the DD Health Home mailbox at [DDHealthHome@dmh.mo.gov](mailto:DDHealthHome@dmh.mo.gov), and indicate in the subject line "DD HH Provider Application." Incomplete applications will not be accepted.
