

4/1/24

April is World Autism Month
Autism Prevalence

The Centers for Disease Control and Prevention (CDC) releases [ASD prevalence reports](#) from the Autism and Developmental Disabilities Monitoring (ADDM) Network that are based on information collected from 11 communities across the United States. [CDC estimates that about 1 in 36 8-year-old children have been identified with ASD.](#)

The Missouri Autism and Developmental Disabilities Monitoring Project (MO-ADDM) was established in 2003. Current Missouri data: [A Snapshot of Autism Spectrum Disorder in Missouri | Autism | NCBDDD | CDC](#)

More information, including data, is available on the [CDC's ASD Homepage](#).
