### Utilization Review Updates Effective May 1, 2024

The [Utilization Review Updates Memo](#) dated April 30, 2024, has been reposted with the following update:

- Change to the number of units authorized to each behavior service in conjunction with the request for a behavior assessment.

A webinar was held on May 15, 2024, which included discussion of the memo, additional Utilization Review tips, and reminders regarding existing procedures and standards, and illustration of the Planning and Utilization Review Tool. Due to technical issues, the webinar will be rerecorded and posted along with a question and answer document.

Based on discussions leading up to and during the training, the Excel document titled Planning and Utilization Review Resource Tool has been updated. It is located in the [Support Coordination Manual](#) under Funding Basics.
