

8/5/24

Back to School with Positive Behavior Support

Lunch and Learn

August 13

Welcome and What is PBS?

August 20

Matrix Workshop

11:30 - 12:30

Learn more about the Positive Behavior Support (PBS) strategies utilized in schools and how they can be used at home too. PBS focuses on environmental changes that encourage expected behaviors and discourage unexpected behaviors. This leads to more desirable behavior and positive, satisfying relationships.

The first session of this lunch and learn focuses on what is PBS and how to use it at home. The second session is on transforming the shared values matrix used in your child's school to one that can be used at home.

Presenters:

- Kathleen Deppeler, Director of Positive Supports
- Amber Stockreef, Interdivisional Children's Services Coordinator

Target Audience:

- Caregivers of school age children
- Other interested individuals

More information, including registration, is available on this [flyer](#).
