State Plan Amendment for Targeted Case Management

The State Plan Amendment (SPA) for Targeted Case Management (TCM) (MO-23-0027 SPA) Developmentally Disabled Individuals Program administered by the Department of Mental Health (DMH) was approved August 2, 2024. It adds a value based reporting payment for Division of Developmental Disabilities TCM providers to complete the Person-Centered Thinking and the Fatal Five for Case Managers training. The purpose of these trainings is to improve the quality of care and quality of life for individuals with developmental disabilities. The TCM Manual will be updated to include the incentive payment.
