

1/31/25

Behavioral Health and Intellectual/Developmental Disability (BHIDD)
Virtual Learning Collaborative

Genetics of IDD

February 11, 2025
9:30 - 11:30

This training provides a comprehensive overview of the causes of intellectual and developmental disabilities (IDD) and explores five common syndromes associated with these conditions. Participants will learn about "behavioral phenotypes" and how this knowledge can inform support strategies. Additionally, the session will highlight the benefits of genetic testing and the importance of identifying the underlying cause of a genetic disorder.

Learning Objectives:

- Describe the many causes of IDD and identify five common syndromes.
- Describe what is meant by "behavioral phenotype".
- Understand the benefits of genetic testing and knowing the cause of the genetic disorder.

Registration

Please note: Registrants will receive an email 24 hours before the scheduled session with their personalized Zoom link needed to join. Do not share this link with others, as it is personal to you.
