Benefits and Work Made Simple Workshops

Fear of losing one's needed government benefits can, and often does, prevent individuals from exploring the possibility of work. The Benefits and Work Made Simple workshop provides professionals with a basic understanding of eligibility criteria for SSI and SSDI as well as the effect of work on each of these benefits. Professionals will leave this workshop with strategies for responding to people's fears and connecting them with resources.

Presenter:

- Sandy Keyser, Employment First Specialist for the Division of Developmental Disabilities

Target Audience:

- Support Coordinators
- Service providers
- Legal guardians/payees
- Others providing supports and services
