**2025 Tier 3 Intensive Supports Workshop
Virtual Learning Opportunity**

The Good and Bad of Client Choice

**June 5, 2025
1:00pm - 3:00pm CST**

[**Register**](#)

Waiver clients are guaranteed choice in their lives...in theory. In most settings, they are offered choice on a very pedestrian and inconsequential manner. In the end, we don't often give them the choice to also make poor decisions. This workshop, based on literature, looks at how we use choice to enhance the life of a client, both good and bad choices.

Objectives:

- Understand what applied literature has to offer about choice.
- Understand the concept of choice in HCBS settings.
- Understand the importance of choice within the context of dignity of life and the right to habilitation.
- Determine how to best apply the concept of choice to your current clients to offer them better supports.

Presenter

Chad R. Lewis, PhD, BCBA-D
