# DDD Weekly

## Director's Corner

Director Sheila Wunning

Hello everyone! I can't believe it's almost March. A lot is going on in the next few weeks. Today is Disability Rights Legislative Day. For over 25 years, disability advocates have gone to the Capitol to meet with legislators about issues that affect them. This year, there will be a rally and legislative meetings. I have to say, I'm excited to celebrate Developmental Disabilities (DD) Awareness Month with all of you in March. Here at the Division of Developmental Disabilities, we are wearing orange on Fridays as a sign of support. DDD staff will be sharing pictures of our orange attire on our

social media pages, so please check that out. We will also share awareness information throughout the month. If you have pictures of you wearing orange you would like us to share on social media, please send them to [ddmail@dmh.mo.gov](mailto:ddmail@dmh.mo.gov).

## How to Use DDD Weekly

## Behavioral Health Resources

Did you know an individual can receive both Division of Developmental Disabilities (DD) services and Division of Behavioral Health (DBH) services? They can. This short nine-minute **video** gives an overview of how Support Coordinators can provide information on DBH resources. In addition, this **Resource Page** includes a brief overview of services, as well as a link to a **website** where you can find treatment and other services available in your area.

## March is Developmental Disabilities Awareness Month (DDAM)

March is officially designated as Developmental Disabilities Awareness Month (DDAM), first proclaimed by President Ronald Reagan in 1987 to foster inclusion, highlight the capabilities of individuals with disabilities, and encourage their full participation in community life. Proclamations across the U.S. emphasize reducing barriers to independence and celebrating the diversity people with disabilities bring to society.

This month at the Missouri Division of Developmental Disabilities, we plan to highlight and share resources that support DDAM. Be sure to watch for more articles in upcoming DDD Weekly newsletters and on the Division’s [social media accounts](#).

## Electronic Visit Verification (EVV) Claims Validation Soft Launch Follow-Up

MO DSS implemented the soft launch of claims validation for electronic visit verification (EVV) on January 7, 2026. The launch was successful, and MO DSS has begun analyzing the success rate of submitted claims. As a result of this analysis, the following reminders are offered.

The majority of the issues identified were related to a lack of matching visits in the EVV Aggregator Solution (EAS). This could be due to several things, including but not limited to:

- EVV is not being used by the provider
- The provider's EVV vendor is not sending visits to the EAS
- Visits in the EAS are not in a verified status
- Claims are being submitted before the EVV vendor sends the visit to the EAS

To ensure claims are paid after the launch of hard edits, providers should not submit a claim for a visit unless the visit is visible in the EAS and is in verified status. Per 13 CSR 70-3.320(3) (G), *EVV vendors must send data to the aggregator solution at least once daily for all dates on which visit data is captured by their provider agencies. Submitting claims before the visit is visible and verified in the EAS will cause your claim to be denied, with no visit found, because the claim could not be matched to a visit in the aggregator.*

For information regarding the EVV claims validation process, visit [the EVV website](#).

For questions, contact [Ask.EVV@dss.mo.gov](mailto:Ask.EVV@dss.mo.gov). For additional resources, refer to the [Education and Training Resources page](#) and/or sign up for a live webinar by accessing our [Provider Training Calendar](#).
